

B1: Mn mở Microsoft SQL lên

B2: Copy server name

A screenshot of the "Connect to Server" dialog box in Microsoft SQL Server Enterprise Manager. The dialog has a title bar with a server icon and the text "Connect to Server" and a close button. The main area has a large "SQL Server" heading. Below it, there are several fields: "Server type:" with a dropdown menu showing "Database Engine"; "Server name:" with a text box containing "copy name here"; "Authentication:" with a dropdown menu showing "Windows Authentication"; "User name:" with a text box containing "TANNGHI\DELL"; and "Password:" with an empty text box. Below the password field is a checkbox labeled "Remember password". At the bottom, there are four buttons: "Connect", "Cancel", "Help", and "Options >>".

B3: Trong thư mục project chọn Web.config

B4: Tìm dòng <connectionString> và thay đổi giá trị dòng data source thành tên vừa copy phía trên

```
<add name="IdeasConnectionString" connectionString="data source=paste name here; initial  
catalog=IdeasCollection" providerName="System.Data.SqlClient"/>
```
